Casa de los Angeles is currently an emergency shelter, temporary housing, and educational grants to 80+ poor families and their children. The success of the center lies in the palpable passion of its founder, Donna, and the people drawn by Donna's deep, abiding love for every family, mother, child, volunteer, and its continued existence and success to the support of a committed community; to date, many countries have supported the organization in numerous ways.

In the spirit of community, the families are required to participate in the life of the day, providing service for each day their child is present. To date, the Casa de los Angeles has hosted children from infants to four years of age, feeding their bodies and minds and making sure there is a smile on their faces.

Magic Town Music Festival is a community collaboration with an Allende volunteer organization.
